

Gissing

Transforming and routing real-time data for the financial markets

About Gissing

Gissing, a division of Thomson Reuters, is the leading supplier of multi-vendor contribution systems to financial institutions worldwide.

Founded as Gissing Consulting in 1991, Gissing has offices in London, New York and Hong Kong and has more than 30 clients, all of which are major investment banks or brokers. There are over 65 client installations around the globe, including London, New York, Frankfurt, Paris, Amsterdam, Hong Kong, Singapore and Tokyo.

Gissing's products have an enviable industry reputation for performance and reliability. Our specialism is the

routing and transformation of real-time data with minimum latency, whatever the application.

Gissing's growing team has extensive knowledge and experience in all aspects of technology associated with the transformation and routing of real-time data for the financial markets. As a result of working closely with our clients to meet their specific requirements, Gissing has built a range of market leading, highly-performant and cost effective products.

Gissing was acquired by Reuters in January 2008 and operates as a division of Thomson Reuters.

About Our Products

Multi Contribution Systems for the management and distribution of financial market data both within the firm and externally to multiple data vendors and other destinations. This product family is branded as Contex.

Real-time data in Microsoft Excel providing subscription to a data source and contribution of derived and validated data, as well as integration of real-time data into client-developed applications for analytics, trading, data contribution and trading administration. This product family is branded as Publishing.

Hedge Fund Solution for integrating your positions and security information via the Bloomberg Trading System in real time. The Publishing add-in allows Microsoft Excel to subscribe to your own security and position data in real time, and to build that data into your trading model.

Gissing also has a professional services team that provides post-sales support around the clock and around the globe, and we can also offer our clients consultancy and training services related to the specification, installation, configuration, implementation and management of our products.
